FOREWORD

The South Carolina Higher Education Statistical Abstract is a comprehensive, single-source compilation of tables and graphs which report data frequently requested by members of the Coordinating Board, staffs of colleges and universities, the Legislature, state government officials and the general public.

Located in the Abstract are the latest statistics on enrollment, degrees awarded, faculty, tuition and fees, funding and other factual data. A glossary of terms used is included in the back of the Abstract.

The Abstract would not have been possible without the assistance of the college and university institutional representatives for the Commission's CHE reports and the Integrated Postsecondary Education Data System (IPEDS). The help and support of these individuals are extremely important to the Commission's data collection process and related reports. Their assistance is appreciated.

Fred R. Sheheen
Commissioner
May 27, 1992

INTRODUCTION

The South Carolina Commission on Higher Education was established by Act 194 of the 1967 General Assembly as the agency responsible for the coordination of higher education in the state. Act 410 of 1978 restructured the Commission and added new responsibilities. Act 629 of 1988 amended the legislation to add a number of initiatives for research and academic excellence and to modify the Commission's appointment process.

The primary concern of the Commission as a coordinating body is to achieve more effective and efficient programs and services at the state's institutions of higher learning. The functions of the Commission are determined by the General Assembly and include the following:

1. To study and submit recommendations concerning financial affairs, facilities, roles and programs of institutions, student affairs (including financial aid programs), and any other subject related to short- and long-range plans of the public postsecondary education institutions;

2. To develop and annually review and refine the Appropriation Formula for Continuing Operations;

3. To review the annual appropriation requests of the public colleges and universities and submit recommendations on their behalf to the Budget and Control Board and the General Assembly;

4. To review requests for permanent improvements submitted by the public colleges and universities and submit recommendations to the Budget and Control Board;

5. To develop and maintain a computerized management information system;

6. To approve new academic degree programs before they are initiated by state-supported institutions of higher education and, with the assistance of out-of-state consultants, to review and evaluate existing academic degree programs;

7. To monitor and evaluate the progress of the institutions in implementing the state program for access and equity in higher education;

8. To develop and annually review the statewide higher education plan;

9. To license non-public educational institutions to operate in or award degrees in South Carolina;

10. To administer the state's agreement with the U.S. Department of Veteran's Affairs with respect to the provisions of Title 38, U.S. Code, Chapter 36, paragraph 3671(a);

INTRODUCTION

11. To administer the state's participation in various programs and activities of the Southern Regional Education Board;

12. To administer certain federal higher education programs when funded;

13. To implement the initiatives for research and academic excellence mandated by Act 629 of 1988 relating to students, instruction and educational services, research and economic development, planning and assessment, and Commission effectiveness (including the provisions of Act 255 of 1992);

14. To monitor the use of funds appropriated for the S.C. Center for Teacher Recruitment and for the S.C. Center for the Advancement of Teaching and School Leadership;

15. To administer the Higher Education Awareness Program in accordance with the provisions of Act 271 of 1992.

SOUTH CAROLINA COMMISSION ON HIGHER EDUCATION
CURRENT REPORTING REQUIREMENTS
MAY 1992

The Commission on Higher Education's Information Requests Policy was created under South Carolina Statutes that require the Commission to:

(1) Provide statistical analyses regarding student enrollment, programs, costs, and other evaluation criteria for higher education in South Carolina to the State and Federal Governments;
(2) consider the financial requirements and to review budget requests of the public institutions of higher education as to their appropriate levels of funding;
(3) publish annually certain reports dealing with educational and financial affairs of the colleges and universities;
(4) define and approve the program offerings of all public higher education institutions; and
(5) require each institution to submit to the Commission annually a report on the assessment of institutional effectiveness.

In order to comply with the Statutes, the Commission on Higher Education (CHE) maintains a state level information base which contains information on public and private higher education institutions in South Carolina. The Federally mandated Integrated Postsecondary Education Data System (IPEDS), Office for Civil Rights (OCR) Reports, Equal Employment Opportunity commission (EEOC) Reports, and a series of CHE Reports established by the Commission in 1967, form the foundation of the state level information base. This information base either currently includes, or is being revised to include, the data necessary to the prescribed functions of the Commission and to its statutory responsibilities. These data are reviewed on a regular basis to determine if they are still useful or if they should be removed from the data collection schedule and, therefore, the information base. Commission and institutional data needs are also reviewed regularly to determine if additional data should be collected and maintained in the information base.

The information base is designed to support the ongoing activities of the Commission on Higher Education, rather than to anticipate all possible data needs for higher education. Because of this, occasional ad hoc requests to the institutions are necessary and appropriate. However, efforts are made to keep these requests to a minimum.

In keeping with its effort to minimize the reporting burden on the institutions, the Commission implemented the following Information Requests Policy effective May 1, 1991:

All requests by Commission staff for institutional statistical data, except those for programmatic statistical data unique to a division, whether currently being collected or new requests, are coordinated through Lynn Metcalf who coordinates information services in the Financial Affairs Division of the Commission. Programmatic statistical data unique to a division will continue to be handled by the division.

The purpose of this policy is to prevent duplicate requests to the institutions, to prevent requests to the institutions for statistical data which are already on file at CHE, and to centralize all requests for statistical data.

An Institutional Research Advisory Committee (IRAC), consisting of Institutional Research Directors and other interested parties from public and private institutions and chaired by CHE's Coordinator of Finance and Information Services, assists the Commission staff in reviewing reporting requirements through annual workshops and periodic meetings. Over the past year this review process has resulted in the elimination of eleven reports which were determined to be no longer useful or necessary.

The Commission maintains three types of data collections, (a) routine statistical data (i.e., IPEDS, OCR, EEOC, and the CHE Report Series), (b) programmatical statistical data unique to a division (i.e., Institutional Effectiveness, Standard Information for Program Review, S.C. Access and Equity Program), and (c) special one-time reports (i.e., Library Study, Study of Developmental Education Programs).

The major routine statistical data collection effort occurs in the fall of each year with the IPEDS, OCR, and EEO-6 reports. The CHE Report series is the only statistical data collection effort that requires reports for the spring and summer semesters.

Below is a listing of the annual data collection effort, categorized by the type of report, the name of the report, a brief description of the data, and their use as it applies to CHE.

ROUTINE STATISTICAL DATA REQUIRED BY STATE AND/OR FEDERAL GOVERNMENTS:

Name of Report Series: IPEDS
Universe: All postsecondary institutions, public & private
Date of Coverage: Fall semester
Process: Data collected by CHE Finance and Information Services Division for the National Center for Education Statistics

1. Institutional Characteristics:

Description - This is a computer printout generated by the National Center for Education Statistics (NCES) which is mailed to each institution for review and updating. Institutions which have not participated in the past receive a form which will, when completed, generate a printout for the following year. This report contains general information about an institution, i.e., name, address, FICE code, number of centers, student fees, room & board, accrediting associations, etc.

Use - The information contained in this report is used by NCES to classify institutions, and to report the amount of tuition and fees, room and board charges, admissions requirements, modes of instruction, selected student services, participation in federal student aid programs, etc. This form is the basis for the institutional information contained in the Directory of Higher Education Institutions published by NCES each year. CHE includes some of the information on the Institutional Characteristics Form in the South Carolina Higher Education Statistical Abstract and other publications and reports.

2. Completions:

Description - This form requests information on the number of degrees awarded, from July 1 of the previous year through June 30 of the current year, by academic degree program, by race, by sex, and degree level.

Use - This information is used by CHE to prepare reports and analyses for the Statistical Abstract and in a statewide Inventory of Academic Degree Programs. It is also provided by CHE on behalf of the institutions to a number of state and regional reporting associations such at the State Division of Research and Statistical Services, and the Southern Regional Education Board (SREB).

3. Fall Enrollment:

Description - This report contains headcount enrollment information on students by race, sex, student level, full/part-time status, and residence.

Use - This information is used by he CHE to prepare reports and analyses for the Statistical Abstract. It is also provided by CHE on behalf of the institutions to a number of state and regional reporting associations such at the State Division of Research and Statistical Services, and the Southern Regional Education Board (SREB).

4. Fall Enrollment in Occupationally-Specific Programs:

Description - This form contains information on headcount enrollment by race and sex in occupationally specific programs.

Use - The data collected in this report replace data formerly collected in the Vocational Educational Data System (VEDS) which was discontinued by the federal government when IPEDS was implemented.

5. Enrollment by Degree Field:

Description - This form contains headcount enrollment by race, sex, full/part-time status, and by academic degree program.

Use - These data are used by NCES and OCR on alternate years to review the progress being made in access and equity for certain degree programs. CHE uses these data annually in academic program review and in other analyses.

6. Finance:

Description - This form contains revenue and expenditure data by budget category for fiscal year ending June 30 of the current year.

Use - For public institutions, CHE now uses the IPEDS Finance form in place of CHE Reports 101A, 101B, 101C, and the 101 Supplement, for preparing analyses to be used in state, regional, and federal publications.

7. Fall Staff:

Description - This form is an abbreviated version of the EEO-6 Form. It is collected biennially and requests the number of full/part-time employees, by race, by sex, and by primary occupational activity.

Use - IPEDS only.

8. Salaries & Fringe Benefits of Full-Time Instructional Faculty:

Description - This form collects data on salaries, tenure, and fringe benefits of full-time instructional faculty by contract length, sex, and academic rank.

Use - CHE uses the information from public institutions to prepare analyses and reports to state, regional, and federal agencies.

9. Libraries:

Description - This survey is collected biennially to obtain information on the status of collections, transactions, staff, service per typical week, and library operating expenditures.

Use - CHE uses the library reports from public institutions when conducting comprehensive studies and in reviewing library funding allocations.

10. Residence & Migration:

Description - This form includes headcount enrollment information of first-time students by student level, full/part-time status, state of residence, in-state high school of graduation, and in-state postsecondary institution transfer.

Use - NCES publishes annually the in-out migration of students for all 50 states. CHE also uses these data to prepare the annual transfer matrix which lists the transfers to and from South Carolina postsecondary institutions. These data are now required for public institutions by S-313.

Name of Report Series: OCR
Universe: Public postsecondary institutions (primarily 4-yr)
Date of Coverage: Fall semester
Process: Data collected by CHE Finance and Information Services Division

1. Survey of Student Retention (B-5):

Description - This is a longitudinal survey of first-time freshmen, by race, by sex, with the first cohort started in 1984, with a new cohort started each year thereafter, and each cohort followed for seven years. Each year a report is produced listing a summary of the retention and completion status of the cohorts.

Use - This is the currently only retention study conducted for all public institutions in the state. The report will be revised to include the requirements for S-313.

Name of Report Series: EEO-6
Universe: All postsecondary institutions
Date of Coverage: Fall semester
Process: Data collected by CHE Finance and Information Services Division

1. Higher Education Staff Information (EEO-6):

Description - This report contains headcount information on the number and salaries of full-time and part-time employees, by race, by sex, and primary occupational activity.

Use - This report is jointly required by EEOC, OCR, NCES, and the Office of Federal Contract Compliance Programs in the Department of Labor. These data are reported directly to EEOC and are not used by CHE in any reports or analyses unless directed by the reporting institution.

Name of Report Series: CHE Reports
Universe: Public senior institutions
Date of Coverage: Fall, Spring, Summer semesters
Process: Data collected by CHE Finance and Information Services Division

1. CHE Report 2-Characteristics of Student Headcount:

Description - This report contains headcount enrollment information on students by race, sex, student level, full/part-time status, and residence for the spring semester only. For the fall semester, these data are taken from the IPEDS Fall Enrollment Report.

Use - The data are used for student/faculty data comparisons and fall/spring headcount enrollment comparisons.

2. CHE 9-FTE Teaching Faculty:

Description - This report lists the number of full-time equivalent (FTE) faculty by discipline and rank.

Use - This report is used to determine the teaching FTE (not including other duties such as research, public service, etc.) by discipline and rank for each institution, for producing FTE student/FTE Faculty ratio reports, for academic program review, and for other Student/Faculty data comparisons.

3. CHE 10-Average FTE Teaching Faculty Salaries:

Description - This report lists the average salary for teaching FTE, by rank and discipline for the fall semester only.

Use - These salary data are used in the computation of faculty salary averages used in the appropriation formula, for academic program review, and for analyses published in the Statistical Abstract.

4. CHE 11-FTE Staff:

Description - This report contains information on FTE Staff, classified and unclassified, by budget category (instruction, research, public service, etc.) for the fall semester only.

Use - These data are combined with data from the CHE 9 to produce an analysis of FTE employees by budget category, and are published in the Statistical Abstract.

5. CHE 14-Student Credit Hours Produced:

Description - This report lists the number of credit hours produced by students enrolled by level and discipline for each semester. This report is the only report collected for all three semesters (fall, spring, and summer).

Use - Credit hour data form the basis of the funding formula and are used to compute FTE enrollment. These data are also used in academic program review.

6. CHE 16-Production Profile:

Description - This report lists, by discipline, the number of scheduled teaching hours (lecture, lab, and seminar) compared with the semester credit hours generated, and is collected for the fall semester only.

Use - This provides us with an analysis of the scheduled teaching hours required to produce one credit hour. These data are also used in conjunction with other CHE reports to produce an analysis of scheduled teaching hours per week.

7. CHE 24A-Average Class Size by Discipline:

Description - This is a List of the average number of students in classes within the various disciplines for the fall semester only.

Use - The data are used in Student/faculty data comparisons, and in various analyses.

8. SAT/ACT & High School Class Rank:

Description - This report is in three parts. Parts 1 and 2 apply to first time freshmen only and include the ACT (Comp) and SAT (verbal, math, and total) scores (within ranges), and high school rank (in tenths), along with the weighted averages for each. These data are collected for both in-state and out-of-state students. Part 3 applies to the total enrollment (at 4-year institutions only).

Use - The data from Parts 1 & 2 are used to produce a report of average SAT scores by institution and the data from Part 3, which lists students who meet three criteria (top 10% high school rank, enrolled for at least 12 hours, and scored at least 1200 on the SAT) are used for institutional qualification for honors funding through the appropriation formula. These data are collected for the fall semester only.

9. Annual Report of Tuition and Required Fees for Full-Time Undergraduates:

Description - A list of required tuition and fees, by category, by institution, with out-of-state differentials, for all public colleges and universities, fall semester only.

Use - Published annually in the Statistical Abstract, the SREB Data Exchange, and various other statistical publications.

10. CHE 201-Classroom and Laboratory Utilization

Description - This reflects the percentage of classroom and lab utilization by institution, based on a standard academic week.

Use - These data are used by the Facilities staff in reviewing permanent improvement requests.

PROGRAMMATIC STATISTICAL AND OTHER DATA UNIQUE TO ACADEMIC AFFAIRS DIVISION, CHE:

Report Series: N/A
Universe: Public postsecondary institutions
Date of Coverage: As needed
Process: Data collected by CHE Academic Affairs Division in concert with CHE Finance and Information Services Division

1. Standard Information Form for Program Evaluation:

Description - A 10 to 14 page document which requests narrative information (e.g., program content, strengths, and weaknesses; program, faculty and student achievements; student placements; future directions of program; faculty credentials, numbers, and specializations, etc.) and data (financial support by program, degrees granted, enrollment, library resources, grants awarded, etc.). An abbreviated form of this document is used to evaluate centers, bureaus, and institutes during the same program evaluation cycle. Faculty vitae are appended.

Use - This form is used as a "mini self-study" annually to evaluate degree programs in selected disciplines on a cyclical basis in four-year public institutions; information is compiled by institution, except for degrees awarded and enrollment data which is supplied by CHE, and transmitted to external program evaluators by CHE staff; these evaluators use this information in addition to on-site visits to recommend to CHE continuation, modification, termination, or commendation for excellence of the programs in question. The reviews of existing programs may also be used by institutions to assist in meeting the requirements of the CHE institutional effectiveness plan to evaluate "majors," and are regularly used by the institutional effectiveness program to demonstrate that program changes take place as a result of the external evaluations. The evaluations also guide CHE and its staff in approving, developing, or implementing new degree-granting proposals in the four-year public institutions by identifying state-wide needs and areas of strength. The evaluations also guide CHE in developing state-wide initiatives by identifying issues common to programs in specific disciplines across the state (e.g., an evaluation of academic libraries; special legislative requests for instructional equipment).

2. Compliance with Prerequisite Courses taken for College Admission:

Description - A one-page form on which institutions report by S.C. resident and non-resident status compliance rates for each of the course prerequisites adopted by CHE and the public four-year institutions, which were effective in Fall 1988.

Use - The information is used to ascertain compliance with CHE policy as developed through the academic vice presidents and endorsed by CHE in 1984, and is also reported as part of the CHE institutional effectiveness program.

3. Other Reporting Requirements:

A variety of other reporting requirements exist, some of them legislatively mandated, some of them dependent on whether or not an institution participates in certain Commission-sponsored or Commission-coordinated programs.

Included among the legislatively mandated items managed by the Academic Affairs Division are annual reports on compliance with provisions of English Language Fluency Bill and on budgets and evaluations of EIA-funded special projects. The former affect all institutions, the latter only those holding special EIA-funded projects.

Other reporting requirements, including quarterly budget reports and year-end annual reports and evaluations, exist if an institution has been awarded a D. D. Eisenhower grant or a Center of Excellence grant. The same requirements existed for the undergraduate instruction grants and for the competitive research grants funded under the Cutting Edge (not funded for last three years).

PROGRAMMATIC STATISTICAL OR OTHER DATA UNIQUE TO THE PLANNING AND ASSESSMENT DIVISION, CHE:

Report Series: Institutional Effectiveness
Universe: Public postsecondary institutions
Date of Coverage: As detailed in the Cutting Edge Legislation
Process: Data collected by CHE Planning & Assessment Division in concert with CHE Finance and Information Services Division

A. Institutional Effectiveness:

Description - All public institutions submit annually a report on the assessment of institutional effectiveness prior to July 1 of each year. The Institutional Effectiveness Reports will be institutionally analyzed and will contain information on the following components, some of which are reported annually and some of which are reported based on an approved schedule:

1. General Education Requirements - Each institution will assess core requirements or distribution requirements that must be completed satisfactorily by undergraduate students prior to graduation.

2. Majors or Concentrations - Each institution will assess specific discipline-based programs leading to undergraduate degree majors or concentrations.

3. Performance of Professional Program Graduates on Licensing and Certificate Exams - Each institution will provide aggregate scores from professional examinations and an interpretation of these data as they affect the curriculum.

4. Reports of Program Changes that have occurred as a Result of External Program Evaluation - Change that takes place as a result of external program evaluations should be reported to the Commission.

5. Alumni Follow-up Studies - Each institution will conduct studies of institutional and program graduates providing information germane to effectiveness assessment.

6. Entry-Level Skills Necessary for College Work - Each institution will define and assess the skills appropriate for its students at the time they enter the institution.

7. Success of Entering Students in Meeting College of University Admissions Prerequisites - Each institution will determine the success of its entering students in meeting the college or university admissions prerequisites. (The one-page form collected by CHE's Academic Affairs Division may be used to provide these data.)

8. Remedial and Developmental Programs - Each institution will describe and assess its program designed to assist underprepared students in achieving the knowledge and skills necessary for satisfactory performance.

9. Achievement of Students Transferring from Two to Four-Year Institutions - Two year (sending) institutions will be responsible for assessing the achievement of their students who transfer to four-year institutions and reporting the assessment information to CHE. Senior institutions will collect information concerning students who transfer to their institutions from two-year state-supported institutions and will share that information with the sending institutions.

10. Analysis of Undergraduate Retention and Attrition - Each institution will analyze and report on its undergraduate retention and attrition.

11. Minority Student and Faculty Access and Equity - Institutions must comply with the requirements of the State Program for Access and Equity to be certain that minority members are allowed equal access to and equity in the academic community.

12. Academic Performance of Student Athletes - Each public institution in South Carolina with intercollegiate athletic programs will submit its NCAA Academic Reporting Form or equivalent document for all intercollegiate sports in which grants-in-aid are awarded. The NCAA Academic Reporting Form or equivalent document will be augmented by or made to include certain of this information by sport and gender; graduation rates for athletes categorized by specific degree earned; etc. Institutions will provide some analysis of how these data are being used.

13. Assessment Procedures for Student Development - Each public institution will evaluate student services and should consider conducting pilot studies of the effect of non-academic experience on student academic and career success.

14. Assessment of Library Usage and Collection Development Procedures - Each institution will ensure that students have access to necessary library materials through the regular assessment of library collections and usage.

15. Assessment of Administrative and Financial Processes and Performance - each institution will report on its assessment of these areas.

16. Assessment of Facilities - Each institution will examine its facilities, with emphasis on strengthening space utilization, assessing maintenance priorities, etc.

17. Assessment of Public Service - Institutions that have public service as part of their mission will have an assessment process to evaluate the effectiveness of such service.

18. Assessment of Research - Institutions that have research as part of their mission will have an assessment process to evaluate the effectiveness of such research.

Use - These data are used to show that South Carolina institutions are accountable.

Report Series: S-313 Legislation
Universe: Public postsecondary institutions
Date of Coverage: As detailed in the S-313 Legislation
Process: Data collected jointly by CHE Planning and Assessment Division and CHE Finance and Information Services Division

A. S-313 Accountability Report

Description - The following requirements are the result of the S-313 Accountability Legislation which states "The Commission on Higher Education shall submit an annual report to the Governor and to the General Assembly. The annual report must be presented in a readable format so as to easily compare with peer institutions in South Carolina and other Southern Regional Education Board states' public, postsecondary institutions."

Each four-year postsecondary institution shall submit to the Commission the following:

1. the number and percentage of accredited programs and the number and percentage of programs eligible for accreditation;

2. the number and percentage of undergraduate and graduate students who complete their degree program;

(The currently collected Student Retention Survey B-5 will be revised to include the additional information necessary to respond to this item.)

3. the percent of lower division instructional courses taught by full-time faculty, part-time faculty, and graduate assistants;

4. the percent and number of students enrolled in remedial courses and the number of students exiting remedial courses and successfully completing entry-level curriculum courses; (This information will be compiled from the Annual Institutional Effectiveness Report.)

5. the percent graduate and upper division undergraduate students participating in sponsored research programs;

6. placement data on graduates;
7. the percent change in the enrollment rate of students from minority groups and the change in total number of minority students enrolled over the past five years. (These data will be compiled from the IPEDS Fall Enrollment Reports.)

8. the percent of graduate students who received undergraduate degrees at the institution within the State, within the United States, and from other nations;

9. the number of full-time students who have transferred from a two-year, post-secondary institution and the number of full-time students who transferred to two-year, postsecondary institutions; (These data will be computed from the IPEDS Residence and Migration Reports.)

10. student scores on professional examinations with detailed information on state and national means, passing scores, and pass rates, as available, and with information on such scores over time, and the number of students taking each exam; (This information will be compiled from the Annual Planning Report.)

11. appropriate information relating to each institution's role and mission. (This information will be compiled from the Annual Planning Report.)

Each two-year, postsecondary institution shall submit to the Commission the following information for inclusion in the report:

1. the number and percentage of accredited programs and the number and percentage of programs eligible for accreditation;

2. the number and percentage of undergraduate students who complete their degree program; (The currently collected Student Retention Survey B-5 will be revised to include the additional information necessary to respond to this item.)

3. the percent of courses taught by full-time faculty, part-time faculty, and graduate assistants;

4. placement data on graduates; (These data will be partially compiled from the Technical Colleges' Reports on Program Evaluation.)

5. the percent change in the enrollment rate of students from minority groups and the change in total number of minority students enrolled

over the past five years. (These data will be compiled from the IPEDS Fall Enrollment Reports)

6. the number of full-time students who have transferred from a four-year, post-secondary institution and the number of full-time students who transferred to four-year, postsecondary institutions; (These data will be computed from the IPEDS Residence and Migration Reports.)
7. appropriate information relating to each institution's role and mission.

Use - Per the Legislation, "The Commission on Higher Education shall make no funding recommendation, capital outlay recommendation, distribution or certification on behalf of any public postsecondary institution that has not submitted the information required pursuant to this section." These data will be used to respond to the Legislation and also to ensure that the institutions are accountable.

Report Series: N/A
Universe: Public postsecondary institutions
Date of Coverage: As required by State Plan
Process: Data collected by CHE Planning and Assessment Division in concert with CHE Finance and Information Services Division

Annual Planning Report:

Description - On June 15 of each year, the Planning and Assessment Staff collects a planning report from each college and university. The basic contents of this report are as follows.

1. A short (one or two pages) description of the institution's planning process. This information is provided every third year with any changes reported in interim years.

2. Institutional mission statements including the most recent date of approval, institutional type, optimum student body composition and enrollment, and primary service area. This information is provided every third year with any changes reported in interim years.

3. Major issues, needs, or opportunities (as well as goals or strategies for addressing these needs if determined) with respect to:

a. instruction
b. staffing (academic and administrative)
c. support services (library, institutional, administrative)
d. student services
e. finance/budget
f. facilities
g. research
h. public service

These are always collected annually, even if they repeat issues, needs, or opportunities from the previous year.

PROGRAMMATIC STATISTICAL AND OTHER DATA UNIQUE TO THE PROGRAM FOR ACCESS AND EQUITY, CHE:

Report Series: N/A
Universe: Public postsecondary institutions
Date of Coverage: As detailed in the Access and Equity Plan
Process: Data collected by CHE Access & Equity Division in concert with CHE Finance and Information Services Division

1. Minority Recruitment/Retention Plan

Description - Colleges and Universities will submit annual minority recruitment and retention plans to the Commission on Higher Education as a prerequisite to the Commission's approval of each institution's utilization of funding for programs that promote minority access and equity.

Each plan consists of two parts. Part A should provide evidence of the institution's commitment and its planning efforts for improving access and maintaining equity for minorities, with accountability measures for evaluating program outcomes and monitoring expenditures. Part B of the plan should be a combined request for all activities and projects the institution wishes to implement with Access and Equity Program Funds during the fiscal year.

Use - These data are used by CHE to evaluate Access and Equity funding and to establish accountability measures and procedures.

STATISTICAL AND OTHER DATA UNIQUE TO THE FINANCE DIVISION, CHE:

Report Series: N/A
Universe: Public postsecondary institutions
Date of Coverage: As needed
Process: Data collected by CHE Finance and Information Services Division

1. Step 12

Description - The Finance and Information Services Division of the Commission annually collects data from institutions who were funded through the Unique Costs Step (Step 12) of the Appropriation Formula. These data include verification of revenues and expenditures. Detailed justification of new and continuing Step 12 requests is also requested annually.

Use - These data are used to justify the recommendation of Step 12 funding and to audit the expenditures of such funds.

2. Research and Public Service Expenditures Report

Description - Non-State general fund expenditures for research and public service are used to generate funding through the Appropriation Formula. Institutions requesting funding through this process must provide a detailed listing of research and public service expenditures including purpose and source of funds.

Use - These reports are used to justify recommended funding and to verify expenditures.

3. Data to be used in the Annual Appropriations Formula Request

Description - Institutions are required to provide certain facilities information for inclusion in the Appropriation Formula. These data consist of detailed building data (i.e., educational and general square footage maintained), actual utilities expenditures, and other information necessary for the computation of a funding recommendation.

Use - These data are used to calculate the institutions funding requests each year.

4. Other Financial Reporting Requirements

Financial Affairs staff often are requested to conduct studies of student fees and fee waivers, auxiliary enterprises expenditures, etc., and, where possible, existing data reports are used to provide statistical data for these studies.

EXAMPLES OF SPECIAL STUDIES

Data Collected by Individual CHE Division in concert with CHE Finance and Information Services Division.

1. Evaluation of academic libraries (all public institutions) FY 1991-92:

Description - One-time study undertaken by CHE as a result of ongoing evaluations of existing programs and negative assessments made concerning libraries; the form was developed in consultation with the Council of College Librarians and includes the library IPEDS form

Use - The information will be used like the Standard Information Forms described in data unique to Academic Affairs Division, as a basis for evaluations to be made by external reviewers who will be asked to assist CHE in developing appropriate policy for future direction of academic libraries

2. Evaluation of Developmental Education Offerings:

Description - A multi-year one-time study (1989-1993) with three discrete parts (implementation of and compliance with CHE policy; evaluation of developmental education offerings; examination of funding mechanisms for developmental education). A variant of the Standard Information Form described above will be used for the same purposes as described above to ascertain compliance with policy and to evaluate offerings.

Use - The Cutting Edge legislation directed the CHE to examine developmental education and to implement appropriate policies (e.g., no credit toward a degree shall be awarded for developmental or remedial coursework).

3. Evaluation of the Effectiveness of the Commission on Higher Education

Description - This involves Periodic Surveys of Constituents and institutional representatives.

Use - These data are used for Agency Self-Evaluation.

GLOSSARY

GLOSSARY

ACADEMIC SUPPORT funds, primarily, to provide support services for an institution's primary missions- instruction,research, and public services.

ALLOCATION an authorization to incur obligations and to make expenditures during a stated period of time, for a specified purpose, and not to exceed the amount provided in the authorization.

APPROPRIATION a legislative authorization that permits government agencies to incur obligations and to make payments out of the treasury for specified purposes. An appropriation usually follows enactment of authorizing legislation. An appropriation act is the most common means of providing budget authority, but in some cases the authorizing legislation itself provides the budget authority.

AUXILIARY ENTERPRISE an entity that exists to furnish goods or services to students, faculty, or staff, and that charges a fee directly related to, although not necessarily equal to, the cost of the goods or service.

BUDGET a plan for the accomplishment, within a definite time period, of programs related to established objectives and goals, setting forth estimates of the resources required and the resources available (usually in comparison with one or more past periods) and showing future requirements. Also, a request for funds to pay the operating cost of the government.

CAPITAL BUDGET a budget that deals with large expenditures for capital items normally financed by borrowing. Usually, capital items have long range returns and useful life spans, are relatively expensive, and have physical presence (for example, buildings, roads, and sewage systems).

CHE FORMULA a methodology used to determine CHE recommendations to the legislation for funding South Carolina's public institutions of higher education.

CREDIT HOUR a unit of measure that represents an hour of instruction that can be applied to the total number of hours needed for completing the requirements of a degree, diploma, certificate or other formal award.

DEBT SERVICES all payments in connection with funds borrowed by an institution, e.g., principal payments, interest payments, payments to reserve and to ensure proper upkeep and maintenance of the facilities, trustees' service charges, legal expenses and other items related to indebtedness.

GLOSSARY

EARMARKED REVENUE funds from a specific course to be spent only for a designated activity.

EXPENDITURES the cost of goods delivered or service rendered, whether actually paid or unpaid, for the operation of an institution and for addition to its plants or payment of an obligation.

FIRST PROFESSIONAL students enrolled in programs leading toward a first-professional degree in the fields of chiropractic, dentistry, law, medicine, optometry, osteopathy, pharmacy, podiatry, theology, and veterinary science.

FULL FUNDING provision of budgetary resources to cover the total cost of a program or project at the time it is undertaken.

FULL-TIME EQUIVALENT (FTE) STUDENT ENROLLMENT calculated as full-time students plus one-third of part time students.

GRADUATE STUDENT a student who holds a bachelor's or first professional degree, or equivalent, and is taking courses at the postbaccalaureate level. These student may or may not be enrolled in graduate programs.

HEADCOUNT ENROLLMENT total of full- and part-time students.

INCREMENTAL FUNDING the provision or recording of budgetary resources for a program or project based on obligations estimated to be incurred within a fiscal year when such budgetary resources will cover on a portion of the obligations to be incurred in completing the program or project.

INSTITUTIONAL SUPPORT central executive-level activities concerned with management and long-range planning of the entire institution, such as the governing board, planning and programming, legal services, etc.

LINE-ITEM BUDGET a budget format that presents the exact amount planned to be spent for every separate good or service to be purchased.

LOWER DIVISION freshman and sophomores.

OPERATING BUDGET the current year budget that guides agencies' everyday activities.

PUBLIC SERVICE an activity that is established primarily to provide noninstructional services beneficial to individuals and groups external to the institution.

GLOSSARY

RESEARCH systemic, intensive study directed toward fuller scientific knowledge or understanding of the subject studied.

RESTRICTED monies that are expendable only for those purposes stipulated by the donor.

REVENUES revenues result from: the rendering of services and is measured by the charge made therefore to the students, sponsors, and others; gains from the sale or exchange of current fund assets; interest and dividends earned on investments; sale of goods; and other increases arising from or for the support of current fund operations, for example, gift, gifts applied, and appropriations.

STUDENT SERVICES offices of admissions and registrar and those activities whose primary purpose is to contribute to the student's emotional and physical well-being and to his or her intellectual, cultural, and social development outside the context of the formal instruction program.

TUITION & FEES fee assessed against students for educational purposes.

UNDERGRADUATE a student enrolled in a 4 or 5 year bachelor's degree program, in an associate degree program, or in a vocational or technical program below the baccalaureate.

UPPER DIVISION juniors and seniors.

UNRESTRICTED monies available for any purpose. This does not include auxiliary enterprise.

ZERO BASE BUDGETING (ZBB) an approach to public budgeting in which each budget year's activities are judged anew, with no reference to the policy precedents or dollar amount of past years.
